PureFlo® Bright

Reverse-Osmosis Filtration Solution

PureFlo® Bright is an advanced reverse-osmosis (RO) filtration solution designed for convenience, quality and peace of mind in the water you drink. Incorporating proven RO filters, built-in IoT (Internet of Things) enabled smart monitoring technology, professional installation and convenient features, PureFlo Bright provides consistently pure, high-quality, great-tasting water in your home or business.

Reverse-osmosis benefits

- Removes chlorine, chloramine, chemicals, lead, heavy metals, taste and odor
- Reduces up to 94% of total dissolved solids (TDS)

Carbon Shaker™ filtration technology

- High-quality filter media attached to the cooler compressor
- Compressor vibrates the filter and media multiple times per hour, creating new pathways for water
- Extends filter quality, longevity and effectiveness over traditional carbon filters
- Longer filter life helps lessen environmental impact

Built-in smart technology

- IoT monitoring detects leaks and measures water throughput
- Water leaks trigger automatic shutoff and an automated service call
- QR code links to dashboard for system performance visibility and validation

Antimicrobial surface treatment

- Water dispenser levers are treated with an antimicrobial surface treatment
- Silver ion technology inhibits bacterial growth on high-touch surfaces

Convenient professional installation

- Hard-plumbed

Certification and testing

- Meets [NSF/ANSI 42, 58, 401, 372 & CSA B483.1](#) filtration system standards for drinking water
- Accredited, third-party certification by the Water Quality Association (WQA) Gold Seal certification program
- Extensive testing to evaluate product structural integrity, ability to reduce contaminants and safety of materials that contact water
